

Fera Pharmaceuticals is Now Shipping Erythromycin Ophthalmic Ointment, USP

NEW YORK-January 26, 2010/BusinessWire/-Fera Pharmaceuticals is pleased to announce that Erythromycin Ophthalmic Ointment, USP 50 x 1 gram is now available.

Fera is pleased to bring this important product to the market, helping to alleviate the ongoing drug shortage and plans for increased supply over the coming weeks.

“Fera has made the completion of Erythromycin 1g manufacturing transfer a priority, responding to the market shortage. We are genuinely pleased to be able to help hospitals provide the standard of care they demand” says Frank DellaFera, President.

The company expects to have available the 3.5 gram tube size in cartons of 24, Hospital –Pak, as well as the single 3.5 gram tube package size over the next few weeks.

About Fera Pharmaceuticals, LLC

Fera Pharmaceuticals is a privately held company. The company goal is to realize opportunities via acquisitions, in-licensing, developing and marketing abbreviated new drug applications (ANDAs), new drug applications (NDAs) and 505(b)(2) NDA products. Areas of interest include products that could benefit from lifecycle management with a special focus on niche markets. For more information visit www.ferapharma.com.
